Enterprise  
Management

**Now you can grow faster,  
without getting bigger**

# Adopt a faster, simpler, more flexible business management solution

Sage Enterprise Management takes the complexity out of running your business. It simplifies every part of your operation, leaving you lean and ready for whatever comes next, wherever you are in the world. With Sage Enterprise Management, you are choosing the next generation business management solution for your enterprise to grow faster and run an agile organisation.

## Faster

Sage Enterprise Management runs your business faster than ever before, with a cohesive, enterprise-class solution to manage all of your core business processes – from purchasing to manufacturing, inventory management, sales, customer service and financials – locally and internationally. It also accelerates collaboration and reporting, and delivers real-time insight into all costs and operational performance.

## Simpler

Sage Enterprise Management is easy to use in a familiar Web browser and on mobile devices, giving you the freedom to work where you need. It is also simple to manage, and highly configurable to adapt to your unique processes, role and preferences. Sage Enterprise Management is a versatile solution – use it as a service in the cloud and reduce demand on your in-house team to maintain the system, or deploy the solution on the infrastructure of your choice.

## Flexible

Sage Enterprise Management is ready for your industry. Built-in functionality for process manufacturing, manufacturing, distribution and services tasks, adjusts to accommodate your company's unique rules and processes. It's also easily scalable – so you'll never run out of capacity again – and quickly adapts to your changing needs, growing with your business as you expand to new markets or geographies, and making it simple to manage a global business.

"Sage Business Cloud Enterprise Management gives us a scalable and agile platform for the future growth of our business, driving efficiency, helping us to get more done faster and eliminating administrative overheads. We're in complete control of our value chain, with complete visibility into financial transactions and performance"

Shiraj Ramachandran, IT Director, McDonald's Oman

# Running your business does not have to be complicated

## Get more done, faster

Increase user productivity and accelerate adoption with an intuitive web user interface that users can easily personalise to work the way they do.

## Go where your business takes you

Access your data on mobile devices, check your inventory, take customer orders, approve purchases, and view key performance indicators on the go.

## Take back control over your processes

Eliminate inefficiencies, ensure compliance, and streamline operations with end-to-end integration of your business processes to control costs and improve profits.

## Get the insight you need, when you need it

Evaluate risks and monitor performance in real-time with user dashboards, self-service business intelligence, and reporting tools.

## Serve your customers better

Accelerate issue resolution and increase employee responsiveness with faster and simpler access to the information they need.

## Expand to new markets or geographies

Increase capacity, implement new processes, manage new business units, or expand to new geographies with a flexible business management solution designed for growth and international trade.

## Gain agility and focus on your business

Take advantage of enterprise-class business management functionality, security, and scalability at a fraction of the cost and complexity of typical ERP systems. Simplify IT management and free up resources to focus on more important projects.

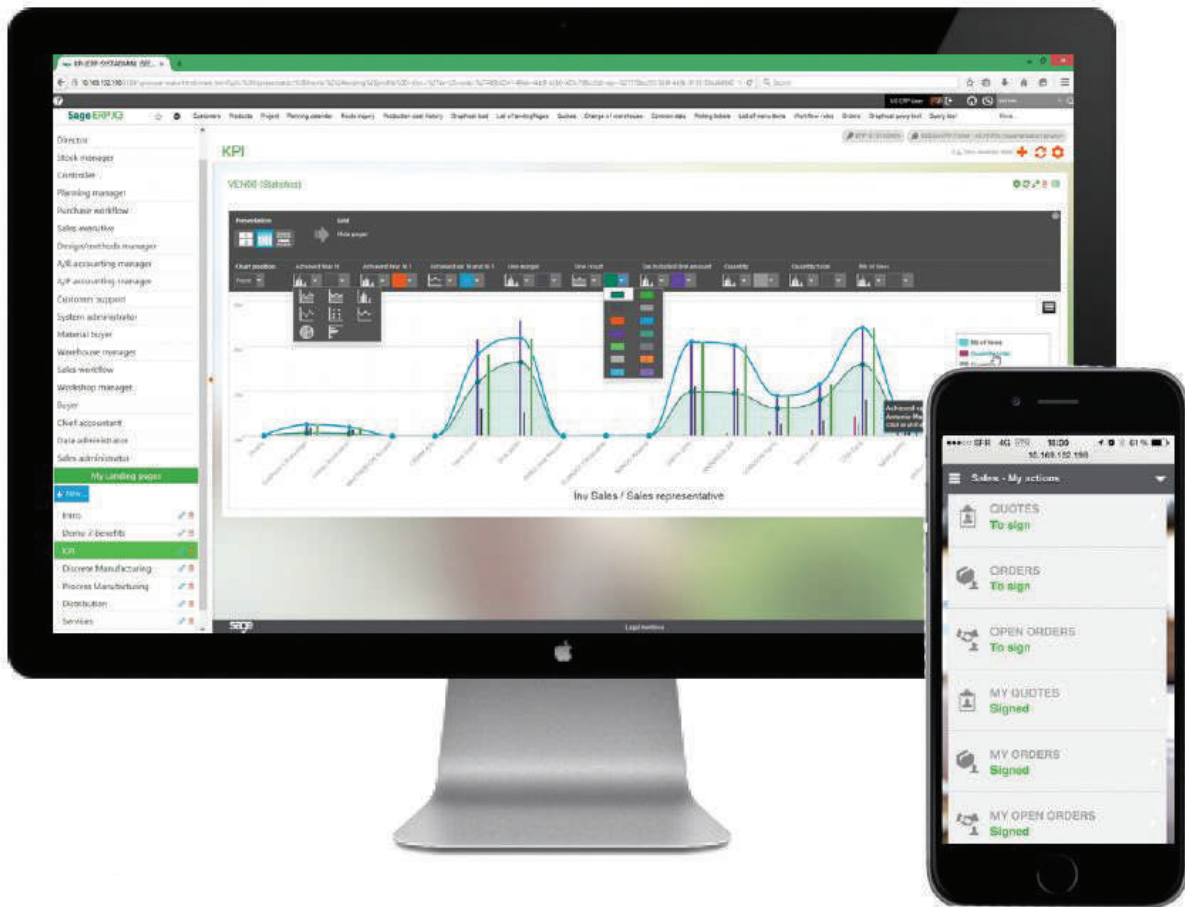

# Ready to manage all your financials and operations

Sage Business Cloud Enterprise Management offers rich functionality to support all your core business processes with minimal IT investment and resources. Accelerate your business processes management with robust analytics and web apps.

Integrated management across purchasing, inventory management, manufacturing, sales, customer service, accounting and finance.

One solution with powerful workflow automation to accelerate business processes and better control performance across all areas of the business.

Built-in analytics for deeper insight into operations, accelerating reporting, communications and decision-making.
